Number 1, March.....	July 19, 1956
Number 2, June.....	December 6, 1956
Number 3, September.....	December 29, 1956
Number 4, December.....	February 27, 1957

# CONTENTS

## No. 1, March, 1956

Taxonomy of the Genus <i>Ceratocystis</i> — <i>John Hunt</i> .....	1
Alkaloids of <i>Papaver orientale</i> L. I. Qualitative Detection and Occurrence— <i>R. F. Dawson</i> and <i>Cynthia James</i> .....	59

## No. 2, June, 1956

The Genus <i>Poria</i> in the Central Rocky Mountains and Pacific Northwest— <i>Robert L. Gilbertson</i> .....	65
Studies on the Development of the Embryo and Seed of <i>Hevea brasiliensis</i> in Culture— <i>Thomas J. Muzik</i> .....	86
Nomenclatorial Notes in <i>Bulbophyllum</i> — <i>Alex D. Hawkes</i> .....	92
<i>Katherinea</i> , a New Name for the Orchid Genus <i>Sarcopodium</i> — <i>Alex D. Hawkes</i> .....	94
Studies in the Spirostreptoid Millipeds. III. The Genera <i>Ptenogonostreptus</i> , <i>Trichogonostreptus</i> , and <i>Oreastreptus</i> — <i>Richard L. Hoffman</i> .....	99
A New Crawfish of the Genus <i>Procambarus</i> from Arkansas (Crustacea, Astacidae)— <i>George Henry Penn</i> .....	109
Studies in Autotetraploids of Linseed ( <i>Linum usitatissimum</i> L.), I. Growth Rate— <i>K. K. Pandey</i> .....	120

## No. 3, September, 1956

Culture Collection of Algae at Indiana University— <i>Richard C. Starr</i> .....	129
Algal Culture Notes— <i>Fred A. Barkley</i> .....	150
<i>Composcladium</i> , a New Genus of Lichenized Ascomycetes— <i>Mackenzie Lamb</i> .....	157
Notes on the Pileate Hydnums. III— <i>Walter H. Snell</i> , <i>Esther A. Dick</i> , <i>Henry A. C. Jackson</i> and <i>Marguerite Taussig</i> .....	163
The <i>Armillariella mellea</i> Group— <i>R. Singer</i> .....	176
Effect of Trace Elements on Growth and Sporulation of <i>Alternaria tenuis</i> — <i>Jawand Singh Grewal</i> .....	188

## No. 4, December, 1956

The Occurrence and Destructiveness of Clitocybe Root Rot of Woody Plants in Florida— <i>Arthur S. Rhoads</i> .....	193
A Preliminary Study of an Apparent Disease of Hemlock ( <i>Tsuga canadensis</i> (L.) Carr.) in the Nursery— <i>James Strobel</i> and <i>M. T. Vermillion</i> .....	241
Studies in Autotetraploids of Linseed ( <i>Linum usitatissimum</i> L.), II. Morphology and Cytogenetics— <i>K. K. Pandey</i> .....	245
Floral Morphology and Embryology of <i>Balanites roxburghii</i> Planch.— <i>N. C. Nair</i> and <i>R. K. Jain</i> .....	269
